LE MARCHE

Verdicchio, Italy's greatest native white grape variety is definitely one of our favourites. A lean, dry white wine with pear skin and preserved lemon flavours. A great wine for pairing with fish.

LAZIO

Lazio has a relatively small wine production, but still remains one of the centers of ancient winemaking. Wines are usually relatively light alcohol with flavours of lemon and chalk-like notes due to the region's volcanic soils.

As partners of Bacçalà, our chef and sommelier share a love and passion for Italian cuisine and wines. Moreno, our chef, who hails from the Marche region, is inspired by the seafood and fresh, simple flavours of his homeland. Fabio, our sommelier, a native of Rome, grew up with wine as an integral part of daily life. Join us as we explore the wines of their home regions, Marche and Lazio, and experience the true essence of Italian wine.

● **TRENTINO - ALTO ADIGE**

Possibly the most beautiful wine region in the world, Alto Adige (aka Südtirol), is where North meets South; in terms of climate, culture, and wine. Eventhough it is one of Italy's smallest winegrowing regions, thanks to its geographical position, it is also one of the most multifaceted. What emerges here are not trendy wines, but rather authentic wines with their own original character. The higher altitudes result in moderate vine growth, a longer maturation period and lower yields. This in turn leads to high levels of concentration in the grapes.

SARDEGNA

As the Sardinian saying goes, "When the wind comes from the sea, you can hear voices of strangers, but they are voices that pass." This captures the spirit of the island, where the local culture has been shaped by a rich history of outside influences, including in wine-making. The Phoenicians were the first to bring wine to the island, and today, Sardinia is home to a variety of grape varieties and wine styles. From the crisp Vermentino of the north to the robust Cannonau of the south, each wine reflects the unique terroir and spirit of the island.

SICILIA

The history of Sicilian wine runs deep, with evidence of winemaking dating back to Mycenaean traders in 1500 BC. Legend has it that Dionysus himself brought wine and joy to the island, but even without the myth, it's clear that winemaking is an integral part of Sicilian culture. When the Greeks settled in Sicily in the 8th century, they brought with them their love for "oinos" (wine), introducing different grape varieties to the island. Today, Sicilian wines are known for their bold flavours, unique grape varieties, and rich history that is sure to transport you back in time with every sip.
